

NEW ZEALAND ROAD - MOUREESES BAY, NEW ZEALAND

PROJECT DESCRIPTION

This project was a huge success. Moureeses Bay is north of Whangarei, in fact north of Whananaki, a coastal beach side village. The residential development at Moureeses Bay climbs off the beach to an area of steep terrain with high-spec housing having views out to The Poor Nights Islands. Building the access road was a challenge for the civil contractors. **The project used FORTA-FERRO[®] as the reinforcement method.** Surveyors / Planners recently asked questions related to casting a pair of feature beams at the entrance to development. And finally, another engineer in the local area is expressing interest in similar project; 1.0 - 1.5 km long driveway.

KEY POINTS

- Superior Strength
- Mixed and Placed Easily
- Cost Effective

DETAILS

Date: October 2013

Location: Moureeses Bay,
New Zealand

Dosage: 3.0 kg. / cu. m.

Fiber: FORTA-FERRO[®] 2-1/4"

Owner Type: Individual

Application: Pavement
